Handball Resin Remover

1. PRODUCT DESCRIPTION

Mixture of mild solvents. For cleaning stains, resins, shoe marks as well as for removing soiled wax films on parquet, wooden floors and other solvent-resistant surfaces. Particularly suitable for removing gripping resins on sports floors, where alkaline cleaner solutions can attack the substrates.

2. APPLICATION

For cleaning, place on the floor and mobilise contamination in sections by machine or manually with a non-scratching white pad. After a short soaking time, the dissolved dirt is removed with a dry cloth. Always use a fresh cloth so that the contamination is not only spread but also absorbed by the cloth. Depending on the degree of soiling and the thickness of the film to be removed, the process must be repeated.

Please note:

- Good ventilation recommended.

3. CONSUMPTION

As required.

4. DRYING TIME

The cleaned surface can be used again after evaporation. Evaporation can be accelerated by good ventilation.

- Low temperatures, increased air humidity and poor ventilation can significantly extend the drying time.

5. STORAGE

Store in a cool dry place. Unlimited shelf life in unopened original container.
Keep out of the reach of children.

6. TECHNICAL DATA

Ingredients: solvent mixture
GISCODE GH10 (wood and stone care products, de-aromatized)(Germany)
ADR/RID: Not a dangerous good as defined by transport regulations.
CLP/GHS: GHS08, Danger Contains: Hydrocarbons, C10-C13, n-alkanes, isoalkanes, cyclics, < 2% aromatics. May be fatal if swallowed and enters airways Harmful to aquatic life with long lasting effects. . IF SWALLOWED: Immediately call a POISON CENTER/doctor/… Do NOT induce vomiting. Store locked up. Dispose of contents/container according to local/regional/national/international regulation. Repeated exposure may cause skin dryness or cracking. UFI: JDX0-80TT-9008-2ND6
